Alex –

This FR Document is ready for final AA review and eSignature:

**FRL:** 9986-27

**Title:** Pesticides; Draft Guidance for Pesticide Registrants on Plant Regulator Label Claims, Including Plant Biostimulants; Notice of Availability

**Timing:** Please sign as soon as possible. I hear that the plan is now to do a ListServ with PrePub copies later today. That is doable if you can sign it by 3pm. Send me an email to let me know and I will get Linda et al the PrePub copies.

To access the final documents electronically, including the FR Document that you need to sign, please [click here](#).

Attached is a copy of the Action Memo that Rick Keigwin signed, as well as detailed instructions that you can follow to do the eSignature. Once done, please reply to this message to let me know it is ready for me to access.

This is our first submission for AA eSignature, so I am still figuring out the SOP and will get input from others on the draft we've been working on. Since this one is time sensitive, I am copying the same approach we worked out with program staff that are getting their DD's to use eSignature.

Give me or Terry Green (202-564-5230) a holler if you need any help. Thanks.
